For more details about individual programs:
Visit the website of the sponsoring SUNY campus.
Call or email the sponsoring campus' study abroad office to talk to an advisor for more program materials or get contact information for a student who has participated in the program.

Binghamton has designed study abroad programs that offer coursework which complement many of our students’ majors, but we recognize that we can’t be in all countries or meet all the study abroad interests of students. Here are a selection of programs that may be of interest to Binghamton students offered through the SUNY campuses.

BINGHAMTON & OTHER SUNY PROGRAMS

Peru Service Learning (Binghamton)
This 6 credit summer course provides an opportunity for students of diverse backgrounds and interests to learn about the dynamics of sustainable development with a focus on the Andean Region in Latin America. The three weeks in Peru will include intensive language instruction and service learning projects at various sites of nonprofit organizations.

Belize Internships (Cortland)
The program is coordinated by academic mentors who are assigned to assist each intern. Living in this developing country affords students both rare insight into Belizean culture and practical training in their field of study. Internships are available in anthropology, archaeology, broadcasting, business, communications, earth sciences, ecology, economics, health, health science professions and technologies, journalism, linguistics, natural and physical sciences, nutrition, physical education, social sciences, and sports science.

The Brockport Vietnam Program (Brockport)
Students take courses in language, culture, history, and politics at Danang University, Duy Tan University (a private university), and the School of Politics (a state political education institute). Each institution exposes students to different philosophies and teaching approaches in Vietnam. The participants also engage in educational activities while providing service in the community. Students can participate in the program during the semester or the summer session.

Global Service Corps – Tanzania (Albany)
Global Service Corps provides opportunities to people who want to share their time and experience to help make the world a better place. Volunteer participants live and work in developing countries and work on a wide range of projects, which in Tanzania includes assisting with HIV/AIDS prevention education, clinical health care, sustainable agriculture training, classroom teaching, and women’s group activities.
