OPPORTUNITIES THROUGH SUNY

STUDY ABROAD IT’S EASIER THAN YOU THINK!

Binghamton has designed study abroad programs that offer coursework which complement many of our students’ majors, but we recognize that we can’t be in all countries or meet all the study abroad interests of students. Here are a selection of programs that may be of interest to Binghamton students offered through the SUNY campuses.

BINGHAMTON PROGRAMS

Community Health and Nursing in the Dominican Republic
The intent of this program is to provide undergraduate and graduate nursing students with a four credit academic international experience for two weeks during the summer. Participants will travel to the rural Juan Dulio area of the Dominican Republic with a faculty member who is knowledgeable about the region and fluent in Spanish.

Peru Service Learning
This 6 credit summer course provides an opportunity for students of diverse backgrounds and interests to learn about the dynamics of sustainable development with a focus on the Andean Region in Latin America. It situates local sustainable-development practice within its interconnection between environmental issues, economic viability, social equity as well as cultural identity.
