Binghamton has designed study abroad programs that offer coursework which complement many of our students’ majors, but we recognize that we can’t be in all countries or meet all the study abroad interests of students. Here are a selection of programs that may be of interest to Binghamton students offered through the SUNY campuses.

**BINGHAMTON SEMESTER & ACADEMIC YEAR PROGRAMS**

**University of Leipzig - Germany**
Binghamton University’s exchange program with the University of Leipzig offers a unique opportunity to experience the changes in Germany as the former East is reunified with the West. Participants enroll in an intensive advanced German-language pre-session and orientation before they take regular university courses in a wide variety of disciplines at the undergraduate or graduate level.

**Karl Franzens Universitat - Austria**
This program currently offers two separate tracks for students based on their training with the German language. Intermediate German-language students can develop their fluency effectively with the "German and Austrian Studies" track; the "European Studies with Coursework in English" track is intended for students with an introductory level of German-language training who also wish to further studies within their major or interests.

**Utrecht University – The Netherlands**
Utrecht University ranks first among Dutch universities and is one of the finest universities in Europe and the world. There is a rich selection of courses in humanities, social science, science and business that are taught in English. Of particular interest are the programs in business and economics, psychology, cognitive neuroscience, linguistics, environmental science, politics and history.

**Utrecht School of Economics – The Netherlands**
Students take courses in the Utrecht School of Economics (USE), in the Faculty of Law, Economics and Governance. USE has an English-language track, in which all courses are taught in English. They take a multidisciplinary approach that fosters the integration of and collaboration between general economics and business economics.
